*Paul -*

Recently Carl Groth and Richard Groth, cousins of the Julius Groth branch of the family, gave us the information on your Grandfather Herman Groth's parents. This takes the family genealogy back to the year 1831 and a little town in northern Germany near the Baltic Sea called Stolp.

You will find a descendant listing by generation of each of the Herman and Clara Groth children so that you can continue to update your own family's history.

If you make corrections and additions and want to have us update the genealogy with the data, please send them to us. We'll be happy to send you a corrected copy.

We are sending a copy to you as a member of the

enclosed is the

Please make copies for your siblings and/or their children, if they would be interested in having one.

Looking forward to hearing from you,

Dear Paul and Pam,

Thanks for the corrections to the Groth genealogy. If in the future we get further information from other relatives, we'll send updates to you.

We've been in Colorado since 1970 when Kodak opened a manufacturing plant in Windsor, Colorado. Bernie was transferred by the Utilities Division, and since I worked for Kodak in Rochester also, I was hired for the Payroll Department at the plant. We both took early retirement in 1983 and decided we liked Colorado so much we stayed here. Our younger son is unmarried and lives nearby, but our older son and his family live in Easton, Pennsylvania. Visiting them gets us back east every couple of years.

We have enclosed a copy of the newspaper article you mentioned in your letter showing the three generations of your family. Pat Farley sent it to us. Pat is the only one of her generation of Farleys left. She still lives in Spencerport, N. Y.

The weather in California looks just terrible on the TV news programs. We trust you are safe and have escaped the severe flooding and mud slides. We've had a beautiful winter so far, but it looks like a storm is heading our way this week.

Take care, and it was so nice hearing from you!

Bernie & Ginny
